## Who we are.

The Thomas Hoof Product Company (THPG for short) was part of the Manufactum Group from 1998 to 2007, where it was responsible for developing its own product lines. Today, we focus on the manufacture and distribution of electrical switch systems and lamps made from traditional materials such as Bakelite, porcelain, and glass. Thanks to a steadily growing network of resellers and long-standing production partners in Germany and across Europe, these products have achieved international success.

They are used above all in historic preservation projects, the renovation of old buildings, and in new constructions – whether hotels, museums, public buildings, commercial spaces, or private residences. Wherever they are installed, they also serve as a

statement in favour of timelessness and durability over passing fashions.

Since 2017, our company head office has been located in a listed villa in Lüdinghausen, Germany.

## What we stand for.

### Quality.

#### Made in Germany and Europe.

What we do not produce ourselves in our own workshop in Lüdinghausen, we have manufactured for us by long-standing partners. The majority of these partners are based in Germany: in Westphalia, Franconia, the Rhine-Main region, Kraichgau and Vogtland – but also in Lower Silesia in Poland, Piedmont and Veneto in Italy.

### Longevity.

**Solid products made of Bakelite, glass and porcelain.**

We work with traditional materials. Not just because they are visually more pleasing. They all have convincing application-specific advantages and guarantee the long service life of our products.

### Constructive transparency.

#### Comprehensible design, easy to dismantle.

Wherever possible, we design our switches, lights and fittings so that every component connection can be detached again and again. In concrete terms, this means screws instead of rivets and glue. This principle, once universally applied but now lost in the world of consumer goods, ensures that our products can be repaired and maintained.

### Repairability.

#### Spare parts from our warehouse at all times.

We guarantee long product cycles. You can obtain spare and wear parts directly from our warehouse in a short space of time – and for many years to come. And if you don't want to do it yourself, we can do it for you. We repair at any time in our workshop.

### Fashion distance.

#### Subtle shapes that you won't get tired of.

We offer products that will still look good even after many years: The timeless shape is not arbitrarily imposed on the object according to changing tastes, but follows its function. Fashion-related changes become obsolete.

**Switch Systems** made  
of Porcelain, Bakelite®  
and White Glass

Over the past years, we have continuously expanded our range of lights and electrical engineering. We always design our products in such a way that they can be easily customised to your individual requirements and can be repaired permanently.

Since 2020, we have been assembling each of our lights ourselves in a specially built workshop in Lüdinghausen, Germany. For you, this means that we have all spare parts for your THPG lights permanently in stock.

The prices are suggested retail prices excluding and including the applicable VAT.  
This price list is valid from January 1, 2026 to December 31, 2026.

The supply takes place in accordance with our terms of payment and supply.  
Errors, price changes and prior sale reserved.
